POST OP VASECTOMY

Post Vasectomy patients, you will need to provide a specimen of semen 3 months after your procedure. Local laboratory options include Boulder Community Hospital and Avista Hospital. Facility location and OUTPATIENT LABORATORY HOURS are as follows:

~~~~~~

Boulder Community Hospital FOOTHILLS LOCATION

4747 Arapahoe Avenue (NE corner Foothills &Arapahoe)
Boulder, CO 80304
Phone: (720) 854-7000

* Specimen can NOT be dropped off at any of the BCH satellite sites….ONLY at the Foothills campus location.*

Avista Hospital/Labcorp

90 Health Park Drive, Medical Bldg #1, Suite 110
Louisville, CO 80027
Phone: (303) 673-1000

~~~~~~

-Collect/provide specimen approximately 3 months post vasectomy. **Condom is not acceptable. Avoid using lubricants.**

-The suggested specimen drop off time is 20 minutes to 1 hour from collection. You will need a specimen cup and physician order. Please contact our office if you need either of these.

Your name and date of birth must be on the specimen cup.

-It is best for the specimen to be kept at body temperature (i.e. if you are transporting the specimen, place it in-between your legs or armpit for body temperature consistency)
